Towable Diesel Generator

QAS 30 PORTABLE GENERATOR SET

- High capacity fuel filter/water-separator is installed as standard which protects the engine and extend the life-time of the generator.
- An adjustable earth leakage detection will protect the operator and the downstream equipment.
- The two stage heavy duty air filter with safety cartridge is located within the generator enclosure. A filter indicator will inform when the air filter should be cleaned or replaced.
- Spark arresting silencer can be installed inside the generator enclosure.
- The QAS generator can be equipped with an over-speed shutdown valve.
