CC-COMBI CUTTERS CC2500 U

ATS
EQUIPMENT INC.

www.atsequipment.com

STRONG, FAST, MODULAR HEAVY-DUTY

The stable cutter body features two powerful hydraulic cylinders with speed valves for minimum cycle times. A modular design allows each unit to be equipped with different jaws in line with requirements.

ATLAS COPCO CC-COMBI CUTTER

STRONG, FAST, MODULAR HEAVY-DUTY

www.atsequipment.com

FEATURES

- good performance-to-weight ratio
- quick positioning thanks to
- mechanical 360° rotation unit
- replaceable blades

UNIVERSAL APPLICATIONS

- light- to medium-duty building demolition
- heavy-duty industrial demolition (heavily reinforced concrete)
- cutting steel profiles (general structural steels)
- secondary reduction
- Material Separation

TECHNICAL SPECIFICATIONS

CC-Demolition cutters	CC 2500 U
Carrier mounted on Komatsu pc228	48,500-77,000 lbs
Service Weight	5820 lbs
Max. Cutting force	66,1400 lbs
Crushing force, jaw tip	201,000 lbs
Oil flow rate	40-66 gpm
Operating Pressure	5,075 psi
Swivel range	360°
Rotary Drive	Hydraulic
Oil Flow rate, rotation	Max. 8 gpm
Operating pressure, rotation	2200-3200 psi
Jaw opening	34.6 in
Jaw depth	31.5 in
Blade Length	13.8 in
Overall height	88.6 in
