DRY-42

PORTABLE COMMERCIAL AND INDUSTRIAL DEHUMIDIFICATION SYSTEM

EFFECTIVE, EFFICIENT TEMPERATURE CONTROL IN ANY APPLICATION!

ATS provides the perfect combination of moisture removal capacity and unit size with its all-purpose DRY-42 dehumidification system. The low-profile design fits easily through tight locations with industrial-grade casters and built-in handles for easy maneuverability around any job site. This highly mobile unit can be quickly adapted to any jobsite in minutes, with supply and returns quickly installed using flexible ducting. The DRY-42 is capable of removing over 3.5 gph of moisture.

APPLICATIONS:

- Drywall & Painting
- Resurfacing Operations
- Storage Vessel Coating
- Concrete Curing/Coating
- Flooding & Fire Damage
- Flooring & Millwork Operations
