## ROTARY HAMMERS

These versatile tools are both a drill and a chipping hammer. A push of the rotation release button easily and quickly converts the tool to a hammer. The CP 0009 and CP0014RR rotary hammers are designed for a wide variety of construction and maintenance applications such as driving or setting masonry anchors and drilling holes in concrete, bricks or rock. As a hammer, these tools can be used for chipping, scarifying, scaling and cleaning welds.

### ALL MODELS

- Excellent power-to-weight ratio helps drill holes faster and easier than comparable electric rotary hammers.
- Built-in oiler provides continuous lubrication.
- Teasing throttle for precise control.
- Rotation release button converts tool to a hammer (except on CP 0009AC).
- Cushioned piston for smooth operation and long tool life.
- Muffler available to reduce noise.

### CP 0009

- Right hand rotation.
- With an adaptor, can be used with electric hammer drill bits.
- Spline version available.

### CP 0014
