ONE-WAY PLATE COMPACTORS

Multiquip's Mikasa Brand Plate Compactors are recognized as the industry standard for compacting granular soils and asphalt.

With all the features you need:

Reliable engine – Honda GX-160 offers easy starting and low oil shutdown for durability.

Cyclonic pre-cleaner – captures most airborne contaminants for engine protection and extended service life.

Single cast baseplate and eccentric housing – lower center of gravity and increases travel speed by 12% for greater productivity.

Hour / Tachometer – Measures run time and engine RPM.

Protective frame – Tubular steel roll bar protects engine components and provides central lifting point.

Anti-vibration handle – Dramatically reduces operator fatigue and increases productivity. Up to 50% less vibration than competitive designs.

Sealed belt cover – Keeps dirt and rocks out of and extends belt life.

Convenient oil drain – Facilitates easy access to engine oil for maintenance. Cog-tooth belt drive – Enables longer life compared to conventional V-belts.

Removable water tank – Easy refilling and removable without tools (largest in it's class).

Open base plate design – Makes for easier removal of dirt and rock build-up. Cast Iron construction for durability.
